## **London Cycling Campaign response to Newham Council consultation on Romford Road**

<https://newhamco-create.co.uk/en/projects/luf-romford>

### **About LCC**

London Cycling Campaign (LCC) is a charity with more than 20,000 supporters, of whom more than 11,000 are fully paid-up members. We speak up on behalf of everyone who cycles or wants to cycle in Greater London; and we speak up for a greener, healthier, happier and better-connected capital.

### **Response**

London Cycling Campaign strongly supports these proposals and further to the points outlined below, we support the more detailed consultation response submitted by our borough group, Newham Cyclists.

We are very pleased to see this scheme of such high quality that includes safe junction design that will allow people to cycle safely on this Top corridor of the Strategic Cycling Network.

More specifically, we request that Newham Council:

- Delivers cycle tracks on Romford Road in full and as quickly as possible, without compromising on protection, width, or junction design
- Co-ordinates with Redbridge Council to allow the cycleway to continue to Ilford Town Centre
- Future-proofs the scheme for low traffic neighbourhoods on the nearby side streets and for cycle tracks on the main roads that cross it to ensure that the cycle route on Romford Road is not compromised by rat-runs
